1	Personnel (study team time)	$112,000
2	Lab supplies and assays (60 participants × 2 visits × $180)	$21,600
3	Equipment (sensors, patches, charging docks, spares)	$9,800
4	Participant reimbursement (60 × $150)	$9,000
5	Data platform and statistics software	$7,400
6	Ethics board and registry fees	$4,200
7	Sample storage	$3,500
	Subtotal	$167,500
8	Contingency (10%)	$16,750
	Total	**$184,250**

Assumptions

- Lab costs assume two visits per participant. If the team decides on one visit (Task #18), line 2 drops to $10,800.
- Equipment purchases are recorded on vouchers attached to the related task (for example, voucher PK-2026-014).
- Spending over 5 percent on any line needs a memo to the PI.

Fictional sample document created to demonstrate the Project Keystone tracker. Not a real study.
